

Wren Sound Systems FAQs

What is Wren Sound Systems?

Wren Sound Systems, LLC, was founded in 2011 by Mike Giffin, a former senior manager at Harman International. The Pennsylvania-based company specializes in the design, development and marketing of high-performance wireless audio systems on a variety of wireless audio platforms — including AirPlay®, Play-Fi™ and Bluetooth. Wren speakers are differentiated by their room-filling acoustic performance, sonic realism, superior natural materials and engineering excellence.

What is the company's mission?

Wren Sound Systems combines cutting-edge technology, old-school materials and build quality, and classic audio know-how to deliver beautiful, affordable sound systems to music lovers who have a passion for simplicity, quality and great design.

What platforms are supported?

The Wren V5AP is designed for Apple AirPlay-enabled devices (including iPhone®, iPad® and iPod®) and supports Wi-Fi. The Wren V5PF supports Wi-Fi, and is designed for smartphones, tablets and computers using the Wren Play-Fi App. The V5BT supports Bluetooth® and is compatible with any Bluetooth-enabled device (Bluetooth.20 and higher), including laptops, networks, Windows® phones and Blackberry® devices. It also works with all Apple iOS and Android devices. The V5US is a universal system which supports AirPlay, Play-Fi, and Bluetooth.

For more information, visit <http://wrensound.com/compatibility>.

How much does the Wren V5 cost?

The Wren V5AP, V5PF, and V5BT have MSRPs of \$299 — far less than similarly equipped wireless sound systems. The Wren V5US has an MRSP of \$499.

Where can I buy the Wren V5 speaker?

The Wren V5 is available through major retailers and our online store at <http://store.wrensound.com>.

What kind of warranty and service can I expect?

Wren Sound Systems offers a 30-day no-hassle return policy and a three-year limited warranty on all registered products.
