

Wren V5AP for Apple® Airplay®

Wren Sound Systems' first product, the Wren V5AP speaker, is a wireless audio system for use with Apple AirPlay. Designed by a team of audio industry veterans, the Wren V5AP harnesses the latest audio and WiFi technology to deliver rich, room-filling sound and superior ease of use. The speaker's refined design features real wood cabinets available in either rosewood or bamboo finishes.

MSRP

\$299.00
